When everything works together perfectly, that's Harmony.

A complete, all-inclusive solution

Alma Harmony™ is a powerful, all-in-one solution for all of your aesthetic needs. Using breakthroughs in medical aesthetic research and technology, Harmony helps to stop the clock from head to toe, with a wide variety of treatment solutions customized to your specific needs.

Optimal Results

Harmony offers combined treatment options that give you faster, longer-lasting results, with fewer treatment sessions and minimal downtime. Rediscover your natural beauty and renew your confidence with optimal results from the start.

Alma Harmony combines a full spectrum of aesthetic solutions, advanced technologies and beautiful, natural-looking results to create complete aesthetic harmony.

Your Safety is our Priority

All Harmony treatments are effective, reliable and have a first-rate safety record proven in extensive clinical studies. The treatments are suitable for all areas of the body, all skin types, and address the specific concerns of all age groups -from teens to older adults.

Standing the Test of Time

Alma Harmony is a uniquely versatile system that evolves with you- addressing your specific concerns today and adapting to your needs as they change over time.

Confidence in your Aesthetic Care

The Alma Harmony system was developed by Alma Lasers, a strong medical aesthetic technology brand that you can rely on for all of your aesthetic needs- now and in the future. Alma holds a leading position in the medical aesthetic field with proven clinical achievements, an impeccable safety record and a firm commitment to the aesthetic care of all generations.

Spectrum of Solutions

Alma Harmony offers powerful treatment solutions for multiple aesthetic concerns.

01

Skin Remodeling

Painless and precisely adapted to treat delicate areas

Radiance, clarity and smooth texture are the hallmarks of youthful skin. But over time, the effects of aging and sun exposure can take their toll, leaving skin imperfections such as wrinkles, fine lines, sun spots, uneven skin tone and skin laxity.

Using Alma's specially designed ClearLift™ laser treatment and high powered Near Infrared technology, Harmony's skin remodeling treatments rejuvenate mature skin, enhancing your natural beauty and revealing smoother, younger, healthier-looking skin. The treatments are 'lunchtime procedures' that are **virtually painless** with **no downtime**, no need for pre-treatment anesthetic and are safe for all skin types.

Varicose And Spider Veins

Greater Precision for Clear-Cut Results

Varicose and spider veins are blood vessels that become enlarged and visible due to weakened valves, which cause blood to pool rather than flow to the heart. Harmony's vascular treatments offer an effective, non-invasive solution that close these veins and reduce or eliminate their appearance.

Using advanced light, laser and Advanced Fluorescence Technology (AFT), Harmony targets the affected blood vessels beneath the skin, leaving you with smooth, clear skin and renewed confidence. The treatments are safe and effective and provide reliable, long term results.

Hyperpigmentation

All-layer targeting of hyperpigmentation- including for dark skin

Lifecycle and hormonal changes can affect the distribution of color (melanin) in our skin, leading to the appearance of sun spots, age spots, or melasma- a dark, patchy facial discoloration condition.

Harmony's light-based and laser treatments remove the appearance of spots and pigmentation by targeting the melanin in the darkened area, clearing all layers of the pigmentation and revealing even-toned, unblemished skin. The treatments are specially designed for patient comfort and are safe and effective for all skin types, including **dark skin**.

Tone & Texture

Smooth, balanced skin- with minimal downtime

As we age, the tone and texture of our skin changes. Fine lines and wrinkles begin to appear, age spots and blemishes may develop, and the texture of our skin can become coarse and uneven.

Harmony's Tone & Texture treatments use light and laser-based skin resurfacing technologies to smooth out and balance the skin- improving overall skin tone, elasticity and texture and reducing superficial pigmentation and pore size, while helping to bolster the skin against future aging.

Results can be augmented even further with Harmony's exclusive Impact™ module, using acoustic wave technology to deliver specially-designed topical ingredients to the deeper layers of the skin. The treatments are safe and effective, and are suitable for all skin types.

Hair Removal

Virtually painless hair removal for all skin types, all-year round

Getting rid of unwanted hair is an age-old issue, with long-term hair removal being particularly challenging. Harmony's SHR hair removal method uses groundbreaking technology to offer a simple, one-stop solution for truly effective hair removal.

SHR's unique gradual heating method effectively damages the hair follicles while avoiding injury to the surrounding skin. The sweeping In-motion™ delivery technique keeps the laser in constant motion ensuring full coverage. Simultaneous contact cooling prevents burns and allows for more comfortable treatment. And a specialized applicator allows your physician to treat large areas in less time.

Whether you have light, dark or tanned skin, coarse or fine hair, Harmony achieves complete hair removal for all areas of the body that's safe, quick and best of all- virtually painless.

Defeating active acne, with lasting results

While there are many treatment options available for acne, both prescription and over-the-counter, these do not always work for everyone. When acne is particularly stubborn or severe, a more advanced solution may be needed. Harmony's acne laser treatment uses a combination of laser technology, simultaneous contact cooling for more comfortable treatment and a unique vacuum mechanism to treat all forms of acne vulgaris. The treatment is suitable for all skin types, has no side effects and achieves a clearer, smoother complexion with lasting results.

Additional Indications

Psoriasis

Psoriasis is a long-term chronic skin problem that causes skin cells to grow too quickly, resulting in thick, white, silvery, or red patches of skin. Harmony's laser treatment provides psoriasis sufferers with an alternative solution that includes no pharmaceuticals and effectively treats psoriasis in just a few quick sessions.

Fungus

Nail fungus is a difficult-to-treat fungal infection of the finger or toe nails. With traditional treatments such as medications and topical creams showing only limited success, Harmony opens up new possibilities with a selection of clinically proven laser and light-based solutions. Harmony's breakthrough treatments target the source of the infection beneath the nail plate, clearing nail fungus within a few short treatment sessions.

Tattoo Removal

Unwanted dark and multi-colored tattoos can be safely and effectively eliminated with Harmony's laser tattoo removal treatment. Using a combination of laser wavelengths that target different ink colors, high-intensity light beams break up the ink particles in the tattoo, revealing clear, ink-free skin with minimal risk of scarring or hypopigmentation.

Benefits

-  **Complete, All-in-One Solution**
An all-inclusive solution for all of your aesthetic needs- today and in the future.
-  **Suitable for All Skin Types**
Effective results for light or dark skin.
